

SPINE APPROACH

CERVICAL DISCOPATHY	Grade I°-II° Pfirmann  		mononuclear cells
CERVICAL DISCOPATHY	Grade III°- V° Pfirmann   		cervical cage
CERVICAL HERNIATION	Grade I°-II°  		mononuclear cells
CERVICAL HERNIATION	Grade III°- V°   		surgical removal + purified autologous adipose tissue
CERVICAL STENOSIS	Grade I°-II°  		mononuclear cells
CERVICAL STENOSIS	Grade III°- V°   		cervical cage

SPINE APPROACH

LUMBAR DISCOPATHY	Grade I°-II° Pfirmann  		mononuclear cells
LUMBAR DISCOPATHY	Grade III°-IV°  		uni/bi-portal endoscopy stabilization with screws and rods + interbody cages
DISC HERNIATION	Grade I°-II°  		mononuclear cells
DISC HERNIATION	Grade III°-IV°  		surgical removal + purified autologous adipose tissue
LUMBAR STENOSIS	Grade I°-II°  		mononuclear cells
LUMBAR STENOSIS	Grade III°-IV°  		interlaminar fusion system (titanium/bone substitute) stabilization with screws and rods
LUMBAR SPONDYLOLISTHESIS	Grade I° 		interlaminar fusion system (titanium/bone substitute)
LUMBAR SPONDYLOLISTHESIS	Grade II°-IV°   		stabilization with screws and rods + interbody cages (titanium/bone substitute)
INFECTIONS			stabilization with screws and rods
DEGENERATIVE THORACO-LUMBAR SCOLIOSIS			stabilization with screws and rods + interbody cages (titanium/bone substitute)
FACET JOINT ARTHROSIS			mononuclear cells / purified autologous adipose tissue
SACROILIAC ARTHROSIS			mononuclear cells / purified autologous adipose tissue
